

REQUEST FOR PROPOSAL

DOI-CMS-2026-001

Cloud Migration Support Services for the Office of the Chief Information Officer

Issuing Agency: Department of the Interior

Contracting Office: Office of the Chief Information Officer (OCIO)

Solicitation Number: DOI-CMS-2026-001

NAICS Code: 541512 — Computer Systems Design Services

Set-Aside: Total Small Business Set-Aside

Proposal Due Date: June 15, 2026, 5:00 PM Eastern Time

Period of Performance: 12-month base period + two (2) one-year option periods

Place of Performance: Washington, DC (remote work acceptable for most tasks)

SAM.gov Link: <https://sam.gov/opp/example-strong-pursue>

This is a competitive acquisition set aside exclusively for Small Business concerns under FAR 19.502-2. No security clearance is required. The Government intends to award a single Indefinite-Delivery Indefinite-Quantity (IDIQ) contract.

All interested offerors must be registered in the System for Award Management (SAM.gov) at the time of proposal submission and remain registered through award.

SECTION C — STATEMENT OF WORK

C.1 Background

The Department of the Interior (DOI), Office of the Chief Information Officer (OCIO) requires cloud migration support services to modernize legacy information systems. DOI currently operates numerous on-premises systems that require migration to AWS GovCloud (US) to improve security posture, reduce operational costs, and align with the Federal Cloud Computing Strategy (Cloud Smart).

C.2 Scope of Work

The contractor shall provide cloud migration support services encompassing all phases of the migration lifecycle. Tasks include but are not limited to:

C.2.1 Cloud-Readiness Assessments

The contractor shall conduct comprehensive cloud-readiness assessments for legacy DOI systems identified by the Government. Each assessment shall include: (a) analysis of current architecture, dependencies, and data flows; (b) identification of migration complexity and risk factors; (c) TCO modeling comparing on-premises vs. cloud operational costs; and (d) a readiness scorecard delivered in a Government-approved format within 30 days of task order award.

C.2.2 Migration Roadmaps Targeting AWS GovCloud

Based on assessment findings, the contractor shall develop detailed migration roadmaps targeting AWS GovCloud (US) regions. Roadmaps shall specify: (a) migration strategy per application (lift-and-shift, refactor, replatform, or retire); (b) sequencing and dependency order; (c) resource estimates and staffing plan; (d) risk register and mitigation strategies; and (e) FedRAMP compliance checkpoints.

C.2.3 Lift-and-Shift and Refactor Migrations

The contractor shall execute approved migration roadmaps. Both lift-and-shift (rehost) and refactor (re-architect) migration patterns are in scope. The contractor shall follow DOI OCIO security baseline requirements and obtain ATO continuation or new ATO as applicable. All production cutovers shall be executed during approved change windows with documented rollback procedures.

C.2.4 Post-Migration Support

Following each application migration, the contractor shall provide 90 days of post-migration hypercare support. Support shall include: (a) performance monitoring and optimization; (b) incident response with 4-hour SLA for Priority 1 issues; (c) cost optimization reviews at 30, 60, and 90 days; and (d) knowledge transfer sessions for DOI operations staff.

SECTION L — INSTRUCTIONS TO OFFERORS

L.1 General Instructions

Proposals shall be submitted electronically via SAM.gov by the date and time specified on the cover page. Late proposals will not be accepted. Offerors are responsible for ensuring timely receipt. Proposals submitted by email, fax, or hard copy will not be accepted.

L.2 Electronic Submission via SAM.gov

All proposal volumes shall be uploaded through the SAM.gov opportunity portal at <https://sam.gov/opp/example-strong-pursue> no later than June 15, 2026, 5:00 PM Eastern Time. Proposals must be submitted in PDF format. File size limit: 50 MB per volume. The Government is not responsible for technical difficulties encountered during upload.

L.3 Volume Structure

Proposals shall consist of three volumes: Volume I — Technical Approach (page limit: 40 pages); Volume II — Past Performance (page limit: 20 pages); Volume III — Price (no page limit). Each volume shall be uploaded as a separate PDF.

L.4 Past Performance Requirements

Offerors shall provide a minimum of two (2) federal cloud migration engagements completed within the past five (5) years. Each reference shall include: (a) contract number; (b) agency/customer name and contracting officer contact; (c) period of performance; (d) contract value; (e) description of cloud migration scope, including platforms migrated and AWS services utilized; and (f) relevance narrative (1 page max per reference).

L.5 Conflict of Interest

Offerors shall disclose any actual or potential organizational conflicts of interest (OCI) in accordance with FAR Subpart 9.5. The Contracting Officer will evaluate disclosed conflicts and may request mitigation plans prior to award.

SECTION M — EVALUATION CRITERIA

M.1 Best-Value Tradeoff

Award will be made on a best-value basis using a tradeoff process. Non-price factors collectively are significantly more important than price. The Government may pay a price premium for a technically superior proposal.

M.2 Evaluation Factors

Proposals will be evaluated under the following factors in descending order of importance:

Factor 1 — Technical Approach: The Government will evaluate the offeror's understanding of the requirement, soundness of the proposed technical approach, staffing plan (including key personnel qualifications), and management approach. Subfactors: (a) Technical Understanding and Approach; (b) Staffing and Key Personnel; (c) Management and Quality Assurance.

Factor 2 — Past Performance: The Government will evaluate the relevance and quality of the offeror's recent and relevant past performance on federal cloud migration contracts. Offerors with no relevant past performance will receive a Neutral rating. A minimum of two (2) federal references with completed cloud migrations in the past five (5) years is required.

Factor 3 — Price: The Government will evaluate the total evaluated price across all contract line items (CLINs) for the base period and all option periods. Price realism analysis will be performed. Unbalanced pricing may be cause for proposal rejection.

M.3 Adjectival Ratings

Technical Approach and Past Performance will be rated as: Outstanding, Good, Acceptable, Marginal, or Unacceptable. Price will be evaluated for fairness and realism but will not receive an adjectival rating.

SECTION K — REPRESENTATIONS AND CERTIFICATIONS

By submitting a proposal, the offeror certifies that it meets all applicable representations and certifications required under FAR 52.204-8 (Annual Representations and Certifications). Small Business concerns must be certified in SAM.gov under NAICS 541512 with the applicable size standard of \$34 million in average annual receipts.

There is NO requirement for a security clearance under this solicitation. All work will be performed on unclassified systems at the impact level of FedRAMP Moderate. The 8(a) Business Development Program does NOT apply to this acquisition.
